

Kelly Kinsman

Director of Air Permitting and Compliance

Mrs. Kinsman brings her diverse scientific, regulatory and management experience to H2E with 13 years in environmental consulting. Her depth of knowledge and proficiency in Air Quality management ideally suits her to be H2E's Director of Air Permitting and Compliance. Mrs. Kinsman is highly adept in other areas including but not limited to Water Quality Management, Stormwater Management, Oil Pollution Prevention, Emergency Response Planning and Management, and SARA Title III Management. Her diverse background and leadership skills make her a key member of the H2E Team.

Experience

- Air Quality Permitting for both renewable and non-renewable energy sectors (minor, synthetic minor, major, Title V/PSD, NSR, Tribal Lands)
 - Perform ongoing air compliance (local, state, federal permit management), acquisitions management navigation and prepare mass transfer consolidation strategies.
 - Conduct permit negotiations, and serve as expert testimony for compliance advisory hearings and City Council hearings.
 - Management of compliance tracking and reporting for local, state and federal agencies (CO Reg. 7, XII downtime reporting, Regulation 7, XVII LDAR program and STEM Plan management and inspection coordination, NSPS and NESHAP requirement expertise, GHG reporting and monitoring for Subpart W Compliance, etc.)
 - State specific attainment and non-attainment permitting
- requirement oversight and management.
 - Ground water monitoring and reporting, NPDES permitting and TPDES permitting for effluent discharge and sampling.
 - Preparation of ground water monitoring well installation permitting and field staff management for project throughout the state of Colorado.
 - Stormwater permitting and SWMP/SWPPP creation and maintenance.
 - Inspection coordination and management from 14-day active inspections through final reclamation.
 - Responsible for conducting applicability determinations, creation and ongoing maintenance of Spill Prevention Control and Countermeasure (SPCC) plans, Facility Response Plans & Emergency Response Action Plans (FRP/ERAP).
 - SPCC plan and facility auditing for compliance with EPA regulations.
