

Robert Gilson

Environmental Professional

Mr. Gilson start his career as an environmental regulatory and compliance consultant to the oil and gas industry in 2007. Starting as a field technician, he consistently performed beyond expectations and quickly advanced to hold roles as an Environmental Professional, Project Manager, Business Unit Manager, and eventually joined H2E as Vice President. Mr. Gilson's experience, knowledge and dedication make him a valuable asset to ensuring permitting and compliance projects are successful for our clients.

Experience

- Developed and implemented a SWP inspection program managing over 1,000 wells sites, 1,000 miles of infrastructure and over 300 miles of pipelines.
- Developed H2E's stormwater program which has grown to provide plan preparation and compliance inspection services to clients in four states.
- Developed and implemented multiple cloud based programs for regulatory compliance tracking associated with stormwater and air quality compliance.
- Integrated the Cloud based programs to facilitate real time or near real time inspection data collection, GIS data collection, and reporting to provide clients with useful, responsive, and actionable results.
- Developed and implemented SPCC programs for several oil and gas operators throughout the Rocky Mountain Region and has prepared plans in CO, WY, MT, and ND.
- Created a global SPCC template for internal plan preparation by a major oil and gas operator.
- Permitted oil and gas facilities for compliance with the Clean Air Act in Wyoming, Montana, and North Dakota.
- Prepared numerous emission inventories and audits for oil and gas operations throughout the Rocky Mountain Region.
- Experienced at leveraging the power of ESRI's ArcGis software suite to dynamically analyze and display spatial information in easy-to interpret maps and displays.
- Oversaw and conducted layout of infrastructure design, landowner coordination, subcontractor coordination and preparation of Plan of Development (POD) documents for submission to the BLM on multiple projects.

Education

Montana State University, Bozeman, MT
Bachelor of Science, Environmental Science and Land Resources
- Soil Science Minor

Certification:

Certified Erosion, Sediment and Storm Water Inspector (CESSWI)
Inspector # 1070
